

American Capital Agency Corp. Announces Estimated Net Book Value of \$25.12 per Common Share as of April 30, 2015

May 12, 2015 8:24 PM EDT

BETHESDA, Md., May 12, 2015 /PRNewswire/ -- American Capital Agency Corp. (Nasdaq: AGNC) ("AGNC" or the "Company") announced today its estimated net book value of \$25.12 per share of common stock as of April 30, 2015. The estimated net book value of \$25.12 was calculated after deducting the Company's April 2015 dividend of \$0.22 per common share and May 2015 dividend of \$0.20 per common share, which were declared on April 13, 2015 and April 27, 2015, respectively, to common stockholders of record as of April 30, 2015 and May 29, 2015, respectively. The Company's estimated net book value per common share as of April 30, 2015 would be \$25.32 after deducting only the April 2015 common stock dividend, and not the May 2015 common stock dividend, which was declared one month early.

The estimated net book value per common share is the Company's total estimated stockholders' equity, less the preferred stock liquidation preference, divided by the number of common shares outstanding as of period end. The estimated net book value per common share is unaudited and has not been verified or reviewed by any third party. The Company's current net book value may also be materially different from its estimated net book value as of April 30, 2015. The Company undertakes no obligation to update or revise its estimated net book value.
