

American Capital Agency Corp. Announces Estimated Net Book Value as of July 31, 2016

August 16, 2016

BETHESDA, Md., Aug. 16, 2016 /PRNewswire/ -- American Capital Agency Corp. (Nasdaq: AGNC) ("AGNC" or the "Company") announced today its estimated net book value of \$22.24 per common share as of July 31, 2016. The estimated net book value of \$22.24 includes deductions for both the Company's July 2016 dividend of \$0.20 per common share, which was declared on July 14, 2016 with a July 29, 2016 record date, and the August 2016 dividend of \$0.18 per common share, which was declared on July 27, 2016 with an August 31, 2016 record date. The Company's estimated net book value per common share as of July 31, 2016 would have been \$22.42 if the August 2016 common stock dividend had not been declared prior to August 1, 2016.

AGNC expects that, in connection with the acquisition of American Capital Mortgage Management, LLC and the internalization of its management on July 1, 2016, the Company will recognize certain intangible assets. Excluding AGNC's current estimates with respect to intangible assets, the Company's estimated net tangible book value per common share as of July 31, 2016 was \$20.54 after deducting the Company's July 2016 and August 2016 common stock dividends, and would have been \$20.72 per common share if the August 2016 common stock dividend had not been declared prior to August 1, 2016.
